

In collaboration with:

The Gelia Castillo Award for Research on Social Innovations in Health (GCARSIH) Call for Applications 2020

ABOUT THE AWARD

The Gelia Castillo Award for Research on Social Innovations in Health (GCARSIH) aims to recognize the outstanding social innovations that address persistent, societal and health systems challenges. Through the innovators' experience, we can better understand why and how social innovations create impact, and discover the keys to scale up or integrate these effective interventions into the larger health system.

This Award is open to ongoing social innovations in health **developed by Filipinos for the Filipinos**. The entry must be implemented in the Philippines.

For the purposes of this Award, social innovations in health (SIH) are defined as new solutions (product, services, models, markets, processes) created by multi-sectoral health system actors. The solutions must address a health need more effectively than existing approaches, and has the ability to enhance people's capacity to act and take ownership of their own health. Social innovations have health-system changing potential as it changes and strengthens relationships between people and result in a more effective use of available resources.

WHO CAN SUBMIT AN ENTRY?

The Award is open to all individuals, groups and institutions that have successfully developed and implemented social innovations in health in the Philippines.

Participating institutions may be:

- public or private
- members of the consortium
- scientific, technological and professional societies or associations
- research institutes
- universities and colleges
- others

HOW TO SUBMIT AN ENTRY

Step 1. Complete the [Submission Entry Form](#), which includes a comprehensive write-up of the health innovation, a description of future plans for sustainability or scale-up, and relevant supporting documents.

Step 2. Submit your entry in person, via courier or via email.

- a. Email: Send to gcarsih@gmail.com with the subject GCARSIH SUBMISSION / <Name of Innovation> / <Name of Region>
- b. In-person or courier: Please refer to Submission Entry Form for the mailing details.

CRITERIA

a) *Eligibility*. The submitted social innovations in health will be considered for shortlisting based on the following eligibility criteria:

- i. Developed by Filipino/s.
- ii. Implemented in the Philippines for at least one (1) year
 - Note: COVID-19 related innovations will be accepted even if these have been implemented for less than a year.
- iii. Based on an identified priority health need of a community or geographical context.
- iv. Complete submission entry form (that has enough information for a fair review) submitted within the set deadline.

b) *Selection*. The shortlisted, eligible entries will be reviewed by an external independent panel of experts based on the following selection criteria:

- **Degree of Innovativeness** (25%) - The innovation provides a novel approach to address a systemic health challenge within its local context, providing an alternative to the status quo.
- **Significance** (15%) - The innovation addresses a health priority of the Philippines (as defined by the National and/or Regional Unified Health Research Agenda), or a priority in a more localized level such as prevalent yet neglected health problem in a town or a marginalized group/ethnic group
- **Participatory & Co-owned** (15%) - Participatory approach is evident in the development, implementation, and evaluation of the innovation (i.e. contributions from various stakeholders: the patients/families, local health personnel, local leaders, other sectors).
- **Potential for Further Research or Scale** (15%) - There are clear plans for further research and development of the innovation. The innovation shows feasibility to be

applied, replicated and scaled-up to other communities with similar problems, or integrated into the broader health system.

- **Inclusiveness** (10%) - The innovation has the potential to be used by a large number of people, enhancing equity and access.
 - **Effectiveness** (10%) - The innovation has a demonstrated positive outcome on the health challenge it is addressing.
 - **Affordability** (10%) - The innovation is affordable to the poor who are otherwise excluded in the local context or the solution is more cost-effective than the status quo.
-

SHORTLISTING AND FINAL SELECTION

The RHRDC will conduct the initial review and shortlisting of applications based on the eligibility criteria, and endorse the shortlisted entries to the GCARSIH Secretariat. Applications that do not meet the eligibility criteria will be notified accordingly.

The Final Selection will be conducted by an independent panel of experts convened by the GCARSIH Secretariat. The innovations will be scored on a scale of 1-5 in 0.5 increments. The panel may conduct on-site or online validation calls (e.g. telephone or video conference).

The panel has the prerogative not to give the award if the innovations fail to reach the threshold score. The decision of the panel is final.

PRIZES AND INCENTIVES

The top innovations in health will receive a cash prize, eligibility for a research and development grant, and a training package with subject matter experts to enable the project to further expand and scale.

The training package will include modules on the following:

- Design thinking for social innovation
- Embedding research in social innovation/Implementation research basics
- Entrepreneurship and innovation
- Measuring outcomes and impact
- Sustainability through policy and governance
- Writing a research and development proposal for your social innovation

IMPORTANT DATES

Submission of entries	June 22 - August 31, 2020
Final Selection of Winners	September 18, 2020
